

Down To The Wire

'Something that ends at the last minute or last few seconds'

for everyone who I drowned in my own misery.

thank you.

Introduction

A little introduction is needed if you are willing to understand the meaning of this half-book. I will first of all explain why I used the term 'half-book'. I am a gemini which means that I can not stick with one thing for a certain amount of time. And this obviously doesn't go with my hobby;

writing. Writing is the only thing that keeps me company during the hours when I'm dying of pain. Don't mistake this sentence by a pessimist one. No, I'm allergic to chocolate, and yet this fact doesn't keep me away from eating chocolate. So I basically eat it, and then I just tend to suffer. But when I start writing, the entire world shuts down and it's only me and my not so very adequate writing skills. However, I've been writing nonsense, so let's get to the thing. My book, which I am sure is not the best book of all time, is a half-book because it consists several stories with no endings. So you might be like 'What a great story!' and then the next second you will possibly be like 'What did I just read? Where the fuck is the ending? What the hell has happened to my precious babies?' Or you might also be like 'Alright... this is the most boring story I've ever read in my entire life. Thank God it ended that quickly.'

I'm not expecting any awards, or kind fan mails, or any fans at all. I just couldn't wait to have a book of my own. That's why it's a bit, well, not good. Good luck while reading. You'll need the luck.

A Letter
