Creative colouring artist book

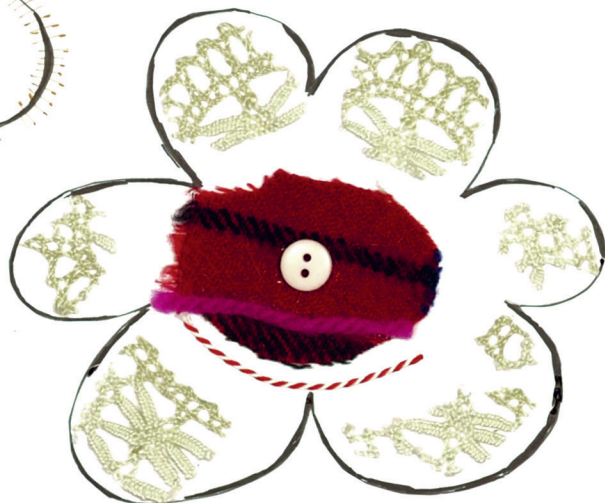

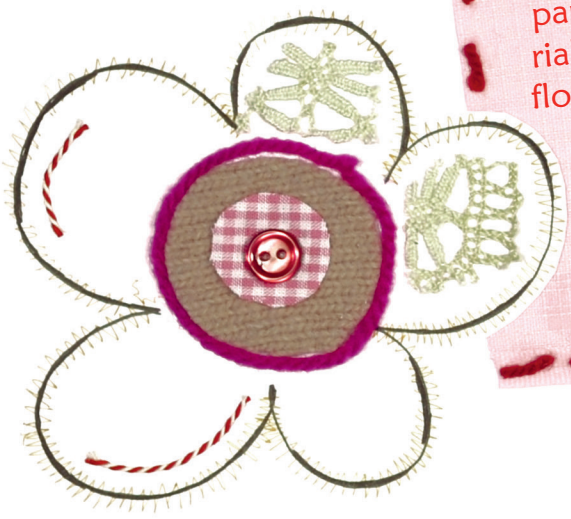

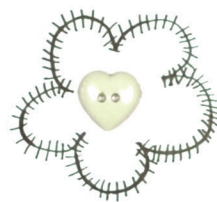

Hanneke de Jager

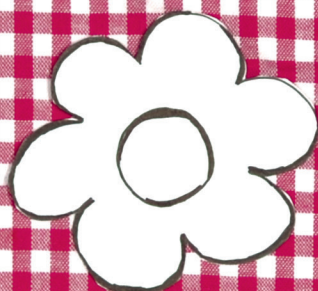

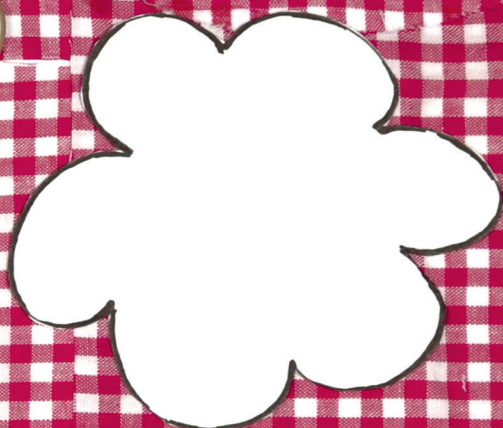

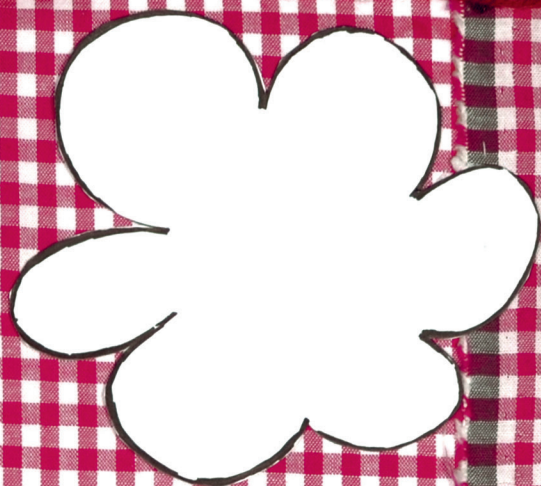

Do it yourself!

Stick the white flowers with crazy fabrics, just as I have done on this page. I expect you have old clothing in your wardrobe, but still love the fabric. Faded shawls, buttons from a favourite crumpled shirt from your partner... All of them perfect material to cut and snip and use for your flowers. Do whatever you want and enjoy the flower power!

An embroidered old
tablecloth. Full of stains has a new
lease of life
with flowers.....
